About The Hosts

***"YOU NEED to meet your audience where they're at,
and this show does it for millions of Americans!"***

– Scott Wheeler, Programming Consultant

Medicare can feel confusing, stressful, and hard to follow. The rules matter. The deadlines matter. And one wrong choice can affect doctors, drug costs, monthly bills, and future care.

That is why MedicareSchool.com exists.

Founded by **Marvin and Josh Musick**, the father-son team that helps people understand Medicare before they choose a plan. Starting with one-on-one help at kitchen tables in Kansas City, it has grown into a national Medicare education and brokerage company serving people in all 50 states, with over 60,000 clients and educating more than a million people online through YouTube's #1 Medicare channel.

MedicareSchool.com was built around a simple idea: people should understand Medicare before they choose coverage. And each weekend on **MedicareSchool.com Answer Hour**, **Marvin and Josh** help explain the rules and deadlines, with practical, expert answers to some of the most stressful questions in retirement planning.

At the heart of **MedicareSchool.com** is one simple belief:

***People deserve clear, honest Medicare help before they
make one of the biggest health care choices of retirement.***
